Secure Casting with Swift Access.

Step 1.

Connect to the site WiFi and turn on your TV.

Step 2.

Navigate to the Swift Homescreen and click on the "Casting" tile

Step 3.

A QR code will appear on your TV screen, scan the QR code with your mobile device and follow the prompts.
When paired, a confirmation message should display on your mobile screen.

Step 4.

Navigate to your favourite streaming service, select the casting button on your device, then select StreamCAST XXXXXTV

You can now pause, play rewind, fast forward, and control your viewing on the TV via your device.
